

## Your benefits

---

- Precise sizing of the water meter according to the flow rates occurring in the system:  
**Improved efficiency**

## Applications

---

- Reduction of the pipe diameter to the nominal diameter of the water meter
- Use in large water metering installations

## Properties

---

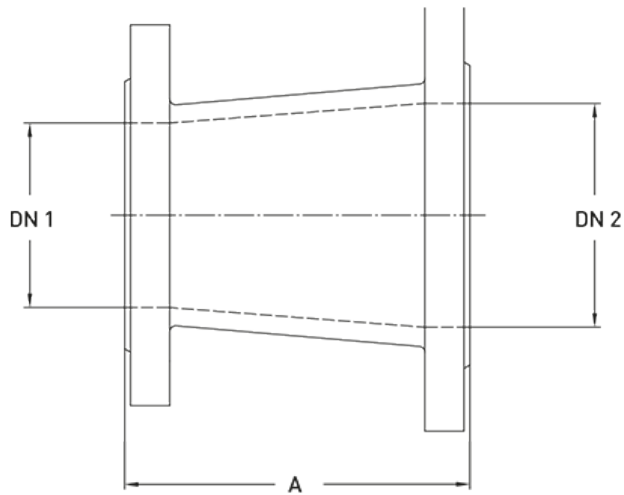

- Standard version PN 16 bar

## Options

---

- Meter size change using honeycomb insert

## Dimension Diagram

## Technical Data

### Dimension and weights

Nominal diameter	DN 1	mm	65	65	80	80	100	125
Nominal diameter	DN 2	mm	80	100	100	150	125	150
Length	A	mm	200	200	200	200	200	200
Weight		app. kg	10	12	13	18	-	-
Weight with reducing insert		app. kg	11	-	-	-	17	23
